Antibiotice Iași Awarded Gold Level Recognition in the Romania Corporate Sustainability & Transparency INDEX Competition

Antibiotice Iași has earned Gold Level Recognition with a score of 93 out of 100, securing 4th place in the Romania Corporate Sustainability & Transparency Index Ranking 2024 (CST INDEX®) – the country’s most prestigious sustainability ranking, now in its 9th edition.

The competition, organized today, December 12, 2024, by The Azores - Sustainability & CSR Services, brought together major Romanian companies for a rigorous evaluation of corporate sustainability and responsibility, recognized at an international level.

Romania CST INDEX® is a sustainability rating that provides an in-depth and unique analysis of sustainability reports in Romania. It acknowledges companies that demonstrate strong sustainability management and high transparency regarding social, environmental, and economic indicators. This recognition reinforces stakeholders’ trust in the accuracy and transparency of the company’s published data.

Antibiotice Iași previously received Gold Level Recognition in 2021 and 2023, consistently ranking among the top seven companies in Romania for sustainability performance and transparency.

About the Romania CST Index Ranking

This ranking is based on an evaluation of sustainability reports for 2023 from Romania’s leading companies. Reports were assessed against 85 sustainability indicators and 201 data points, covering corporate impact in economic, environmental, and social areas. The final score for each company was determined based on its industry sector.

Companies were evaluated on sustainability performance and transparency in key areas such as:

- Climate change
- Governance
- Diversity and anti-corruption policies
- Employee responsibility
- Responsible marketing
- Value chain management

Since 2017, Antibiotice Iași has been reporting on the non-financial impact of its operations. For the past three years, it has voluntarily published an Integrated Annual Report, which includes both financial and non-financial data. Antibiotice is among the first companies in Romania to produce such a comprehensive report.
